NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of National Mortgage Insurance Corporation (“NMIC” or the “Company”), are presented on the basis of accounting practices prescribed or permitted by the Wisconsin Office of the Commissioner of Insurance (“Wisconsin OCI”).

The Wisconsin OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Wisconsin Insurance Statutes. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual, version effective January 1, 2001, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin. The state of Wisconsin has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus.

The Wisconsin Commissioner of Insurance (the “Commissioner”) has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

- (1) The Company uses widely accepted models to determine prepayment assumptions in valuing loan-backed securities with inputs from major third-party data providers. The Company's investment policy complies with *SSAP No. 43R - Loan-backed and Structured Securities* as adopted by the Wisconsin OCI.
- (2) For the three months ended March 31, 2024, the Company did not have securities with a recognized other-than-temporary impairment, disclosed in the aggregate, classified on the basis for the other-than-temporary impairment.
- (3) For the three months ended March 31, 2024, the Company did not hold securities with an other-than-temporary impairment as the present value of cash flows expected to be collected was less than the amortized cost basis of the securities.
- (4) All impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

(a) The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	651
2. 12 Months or Longer	\$	3,547,914

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	677,303
2. 12 Months or Longer	\$	45,214,082

- (5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the Company considers its intent to sell the security and whether it is more likely than not that the Company would be required to sell the security before recovery, extent and duration of the decline, failure of the issuer to make scheduled interest or principal payments, change in rating below investment grade and adverse conditions specifically related to the security, an industry, or a geographic area.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, an impairment charge is recorded within net realized investment gains in the statements of operations in the period such determination is made. No other-than-temporary impairments were recognized for the three months ended March 31, 2024. As of March 31, 2024, the Company held no other-than-temporarily impaired securities.

C. Dividend Restrictions

The Company's ability to pay dividends to its parent is limited by state insurance laws of the State of Wisconsin and certain other states. Under Wisconsin law, the Company may pay dividends up to specified levels (i.e., "ordinary" dividends) with 30 days' prior notice to the Wisconsin OCI. Dividends that exceed ordinary dividends (i.e., "extraordinary" dividends) are subject to the Wisconsin OCI's prior notice and non-disapproval. Under Wisconsin insurance laws, an ordinary dividend is defined as any payment or distribution that together with other dividends and distributions made within the preceding 12 months does not exceed the lesser of (i) 10% of the insurer's statutory policyholders' surplus as of the preceding December 31 or (ii) adjusted net income. Adjusted net income is calculated as the greater of (a) the net income, excluding capital gains, for the immediately preceding calendar year or (b) the aggregate net income, excluding capital gains, for the three immediately preceding calendar years, minus shareholder distributions made in the first two of three aforementioned calendar years. Dividends that exceed this amount are extraordinary and require prior notice and non-disapproval of the Commissioner. Additionally, statutory minimum capital requirements may limit the amount of dividend that the Company may pay.

California and New York prohibit dividends except from undivided profits remaining on hand over and above its paid-in capital, paid-in surplus and contingency reserves. Additionally, statutory minimum capital requirements may limit the amount of dividend that the Company may pay. For example, the State of Florida requires mortgage guaranty insurers to hold capital and surplus not less than the lesser of (i) 10% of its total liabilities, or (ii) \$100 million.

As an *approved insurer* and Wisconsin-domiciled carrier, NMIC is required to satisfy financial and/or capitalization requirements stipulated by each of Fannie Mae and Freddie Mac (collectively, “the GSEs”) and the Wisconsin OCI. The financial requirements stipulated by the GSEs are outlined in the Private Mortgage Insurer Eligibility Requirements (“PMIERS”). Under the PMIERS, NMIC must maintain available assets that are equal to or exceed a minimum risk-based required asset amount, subject to a minimum floor of \$400 million. At March 31, 2024, the Company reported \$2.8 billion available assets against \$1.6 billion risk-based required assets, for a \$1.3 billion “excess” funding position.

D. Dates and Amounts of Dividends Paid

No significant change from year end 2023.

E. Amount of Ordinary Dividends That May Be Paid

The Company has the capacity, under Wisconsin law, to pay aggregate ordinary dividends of \$96,308,469 to NMIH during the twelve-month period ending December 31, 2024. *See Item C - Dividend Restrictions above.*

Contingency reserves

Mortgage guaranty insurers are required to establish a special contingency reserve from unassigned surplus, with annual contributions equal to the greater of (1) 50% of net earned premiums or (2) minimum policyholders' position divided by seven. The purpose of this reserve is to protect policyholders against the effects of adverse economic cycles. The contribution to contingency reserves for any period is released to unassigned funds after 120 months unless it is released prior to that time with the prior consent of the Wisconsin OCI.

Sec. 3.09 (14) of the Wisconsin Administrative Code (“Wisconsin Code”) allows withdrawals from the reserve in any year to the extent that incurred claims and claim adjustment expenses exceed 35% of earned premiums. Additionally, in order to receive a tax benefit for the deduction of the additions to the statutory contingency reserve, the Company may purchase U.S. government issued tax and loss bonds in the amount equal to the tax benefit. These non-interest-bearing bonds are held in investments for maintaining the statutory liability for ten years or until such time as the contingency reserve is released back into surplus.

The Company established contingency reserves in the amount of \$1,654,279,083 and \$1,573,360,178 as of March 31, 2024 and December 31, 2023, respectively. Historically, the Company established contingency reserves based on 50% of direct premiums earned without consideration of reinsurance for the applicable reporting period. In the fourth quarter of 2022, the Company changed its accounting for the establishment of contingency reserves for ILN transactions. The Wisconsin OCI confirmed the appropriateness of this accounting change in a letter dated December 9, 2022. As of December 31, 2022, the contingency reserve additions exclude ceded premiums on all ILN transactions. The ILNs are fully collateralized with the funds deposited into segregated reinsurance trusts and the related reinsurance agreements and other ILN transaction documents have been approved by the Wisconsin OCI. NMIC released \$952,065 and \$2,313,560 of contingency reserves to unassigned funds for the three months ended March 31, 2024 and year ended December 31, 2023, following the expiration of the applicable 120-month statutory holding period. The Company did not have contingency reserve withdrawals related to losses or excess capital for the three months ended March 31, 2024 and year ended December 31, 2023.

Per the Wisconsin Code, the Company records changes in the contingency reserve through the income statement as an underwriting expense, which differs from NAIC SAP. *See Note 1 - Item A - Accounting Practices* above.

Allowance for uncollectible premiums

As of March 31, 2024 and December 31, 2023, the Company had net admitted assets of \$76,208,484 and \$78,460,319, respectively, related to premiums receivable due from policyholders. The Company routinely assesses the collectability of these receivables. All premiums receivable outstanding for 90 days or more are reclassified as nonadmitted. For premiums receivable outstanding for less than 90 days, the Company establishes an allowance for uncollectible premiums directly reducing net admitted premiums receivables. The allowance is based on the Company’s recent collection experience with uncollectible amounts related to operational reasons (such as delayed servicer reporting). The Company has not experienced any uncollectible amounts due to the credit worthiness of loan servicers. The potential for any additional loss is not expected to be material to the Company’s financial condition.

Litigation

NMIC records a litigation liability when the Company determines that it is probable a litigation loss will be incurred and the amount of such anticipated loss can be reasonably estimated. In the event NMIC determines that a litigation loss is reasonably possible (though not probable), the Company discloses an estimate of the possible loss if such estimate can be reasonably established or discloses the matter with no estimate if such estimate cannot be reasonably made. NMIC evaluates litigation and other legal developments that could affect the Company’s accrual for probable losses or estimated disclosure of possible losses and makes ongoing adjustments to the Company’s accruals and disclosures as appropriate. Significant judgment is required to determine both the likelihood and the estimated amount of potential losses related to such matters.

The Company is currently named as a defendant in a litigation proceeding pertaining to the refund of certain mortgage insurance premiums under the Homeowners Protection Act. The case was dismissed in September 2023 and is currently pending appeal. NMIC does not currently expect that it will incur a material loss in connection with the case and has not recorded a litigation liability for this matter.

Financial instruments - liabilities							
Total liabilities	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	—

There were no transfers between Level 1 and Level 2 of the fair value hierarchy during the three months ended March 31, 2024.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of March 31, 2024.

The Company established a fair value hierarchy by prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 - Fair value measurements based on quoted prices in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. The Company does not adjust the quoted price for such instruments.
- Level 2 - Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.

- Level 3 - Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, the Company must make certain assumptions, which require significant management judgment or estimation about the inputs a hypothetical market participant would use to value that asset or liability.

The level of market activity used to determine the fair value hierarchy is based on the availability of observable inputs market participants would use to price an asset or a liability, including market value price observations.

22. Subsequent Events

The Company has performed subsequent events procedures through May 10, 2024.

23. Reinsurance

NMIC enters into third-party reinsurance transactions to actively manage its risk, ensure compliance with PMIERS, state regulatory and other applicable capital requirements (respectively, as defined therein), and support the growth of its business. NMIC currently has both excess-of-loss and quota share reinsurance agreements in place.

Excess-of-loss reinsurance*Insurance-Linked Notes*

NMIC is a party to reinsurance agreements with Oaktown Re III Ltd., Oaktown Re V Ltd., Oaktown Re VI Ltd., and Oaktown Re VII Ltd. (special purpose reinsurance entities collectively referred to as the “Oaktown Re Vehicles”) effective July 30, 2019, October 29, 2020, April 27, 2021, and October 26, 2021, respectively. Each agreement provides NMIC with aggregate excess-of-loss reinsurance coverage on a defined portfolio of mortgage insurance policies. Under each agreement, NMIC retains a first layer of aggregate loss exposure on covered policies and the respective Oaktown Re Vehicle then provides second layer loss protection up to a defined reinsurance coverage amount. NMIC then retains losses in excess of the respective reinsurance coverage amounts.

NMIC makes risk premium payments to the Oaktown Re Vehicles for the applicable outstanding reinsurance coverage amount and pays an additional amount for anticipated operating expenses (capped at \$250 thousand per year). NMIC ceded aggregate premiums to the Oaktown Re Vehicles of \$6.0 million and \$9.1 million during the three months ended March 31, 2024 and 2023, respectively.

NMIC applies claims paid on covered policies against its first layer aggregate retained loss exposure under each excess-of-loss agreement. NMIC did not cede any incurred losses on covered policies to the Oaktown Re Vehicles during the three months ended March 31, 2024 and 2023, as the aggregate first layer risk retention for each applicable agreement was not exhausted during such periods.

Under the terms of each excess-of-loss reinsurance agreement, the Oaktown Re Vehicles are required to fully collateralize their outstanding reinsurance coverage amount to NMIC with funds deposited into segregated reinsurance trusts. Such trust funds are required to be invested in short-term U.S. Treasury money market funds at all times. Each Oaktown Re Vehicle financed its respective collateral requirement through the issuance of mortgage insurance-linked notes to unaffiliated investors. Such insurance-linked notes mature ten years (in the case of the notes issued by Oaktown Re III Ltd. and Oaktown Re V Ltd.) and 12.5 years (in the case of the notes issued by Oaktown Re VI Ltd. and Oaktown Re VII Ltd.) from the inception date of their associated reinsurance agreement. NMIC refers to reinsurance agreements with and the insurance-linked note issuances by Oaktown Re Vehicles individually as the 2019 ILN Transaction, 2020-2 ILN Transaction, 2021-1 ILN Transaction, and 2021-2 ILN Transaction, and collectively as the ILN Transactions.

The respective reinsurance coverage amounts provided by the Oaktown Re Vehicles decrease (over a ten-year period in the case of Oaktown Re III Ltd. and Oaktown Re V Ltd. and 12.5-year period in the case of Oaktown Re VI Ltd. and Oaktown Re VII Ltd.) as the underlying insured mortgages are amortized or repaid, and/or the mortgage insurance coverage is canceled. As the reinsurance coverage decreases, a prescribed amount of collateral held in trust by the Oaktown Re Vehicles is distributed to ILN Transaction noteholders as amortization of the outstanding insurance-linked note principal balances. The outstanding reinsurance coverage amounts stop amortizing, and the distribution of collateral assets to ILN Transaction noteholders and amortization of insurance-linked note principal is suspended if certain credit enhancement or delinquency thresholds, as defined in each agreement, are triggered (each, a Lock-Out Event). Effective March 31, 2024, a previously triggered Lock-Out Event for the 2019 ILN Transaction was deemed to have cleared and amortization of the associated reinsurance coverage, and distribution of collateral assets and amortization of the associated insurance-linked notes resumed.

NMIC holds optional termination rights under each ILN Transaction, including, among others, an optional call feature which provides NMIC the discretion to terminate the transaction on or after a prescribed date, and a clean-up call if the outstanding reinsurance coverage amount amortizes to 10% or less of the reinsurance coverage amount at inception or if NMIC reasonably determines that changes to GSE or rating agency asset requirements would cause a material and adverse effect on the capital treatment afforded to NMIC under a given agreement. In addition, there are certain events that trigger mandatory termination of an agreement, including NMIC's failure to pay premiums or consent to reductions in a trust account to make principal payments to noteholders, among others.

The following table presents the inception date, covered production period, initial and current reinsurance coverage amount, and initial and current first layer retained aggregate loss under each outstanding ILN Transaction. Current amounts are presented as of March 31, 2024.

(1) NMIC applies claims paid on covered policies against its first layer aggregate retained loss exposure and cedes reserves for incurred claims and claim expenses to each applicable ILN Transaction and recognizes a reinsurance recoverable if such incurred claims and claim expenses exceed its current first layer retained loss.

(2) Approximately 1% of the production covered by the 2020-2 ILN Transaction has coverage reporting dates between July 1, 2019 and March 31, 2020.

(3) Approximately 1% of the production covered by the 2021-1 ILN Transaction has coverage reporting dates between July 1, 2019 and September 30, 2020.

(4) Approximately 2% of the production covered by the 2021-2 ILN Transaction has coverage reporting dates between July 1, 2019 and March 31, 2021.

Under the terms of NMIC's ILN Transactions, NMIC is required to maintain a certain level of restricted funds in premium deposit accounts with Bank of New York Mellon until the respective notes have been redeemed in full. "Cash and Cash Equivalents" on the Company's balance sheets includes restricted amounts of \$1.1 million and \$1.3 million as of March 31, 2024 and December 31, 2023, respectively. The restricted balances required under these transactions will decline over time as the outstanding principal balance of the respective insurance-linked notes are amortized.

Traditional reinsurance

NMIC is party to six excess-of-loss reinsurance agreements with broad panels of third-party reinsurers – the 2022-1 XOL Transaction, effective April 1, 2022, the 2022-2 XOL Transaction, effective July 1, 2022, the 2022-3 XOL Transaction, effective October 1, 2022, the 2023-1 XOL Transaction, effective January 1, 2023, the 2023-2 XOL Transaction, effective July 1, 2023, and the 2024 XOL Transaction, effective January 1, 2024 – which we refer to collectively as the XOL Transactions. Each XOL Transaction provides NMIC with aggregate excess-of-loss reinsurance coverage on a defined portfolio of mortgage insurance policies. Under each agreement, NMIC retains a first layer of aggregate loss exposure on covered policies and the reinsurers then provide second layer loss protection up to a defined reinsurance coverage amount. The reinsurance coverage amount of each XOL Transaction is set to approximate the PMIERS minimum required assets of its reference pool and decreases from its peak over a ten-year period in the event the PMIERS minimum required assets of the pool declines. NMIC retains losses in excess of the outstanding reinsurance coverage amount.

Under the terms of the XOL Transactions, NMIC makes risk premium payments to its third-party reinsurance providers for the outstanding reinsurance coverage amount and ceded aggregate premiums of \$9.2 million and \$7.2 million during the three months ended March 31, 2024 and 2023, respectively. NMIC applies claims paid on covered policies against its first layer aggregate retained loss exposure under each agreement. NMIC did not cede any incurred losses on covered policies under the XOL Transactions during the three months ended March 31, 2024 and 2023, as the aggregate first layer risk retention for each agreement was not exhausted during such periods.

NMIC holds optional termination rights which provide it the discretion to terminate each XOL Transaction on or after a specified date. NMIC may also elect to terminate the XOL Transactions at any point if the outstanding reinsurance coverage amount amortizes to 10% or less of the reinsurance coverage amount provided at inception, or if it determines that it will no longer be able to take full PMIERS asset credit for the coverage. Additionally, under the terms of the treaties, NMIC may selectively terminate its engagement with individual reinsurers under certain circumstances. Such selective termination rights arise when, among other reasons, a reinsurer experiences a deterioration in its capital position below a prescribed threshold, and/or a reinsurer breaches (and fails to cure) its collateral posting obligation.

Each of the third-party reinsurance providers that is party to the XOL Transactions has an insurer financial strength rating of A- or better by Standard & Poor's Rating Service (S&P), A.M. Best Company Inc. (A.M. Best) or both.

The following table presents the inception date, covered production period, initial and current reinsurance coverage amount, and initial and current first layer retained aggregate loss under each outstanding XOL Transaction. Current amounts are presented as of March 31, 2024.

(1) NMIC applies claims paid on covered policies against its first layer aggregate retained loss exposure and cedes reserves for incurred claims and claim expenses to each applicable XOL Transaction and recognizes a reinsurance recoverable if such incurred claims and claim expenses exceed its current first layer retained loss.

(2) Approximately 1% of the production covered by the 2022-1 XOL Transaction has coverage reporting dates between October 21, 2019 and September 30, 2021.

(3) Approximately 1% of the production covered by the 2022-2 XOL Transaction has coverage reporting dates between January 4, 2021 and March 31, 2022.

(4) Effective January 1, 2024, the initial reinsurance coverage and initial first layer retained loss amounts increased due to revised contractual terms.

(5) The initial reinsurance coverage, current reinsurance coverage, initial first layer retained loss and current first layer retained loss for the 2024 XOL Transaction will increase as incremental covered production is ceded under the transaction through December 31, 2024.

Quota share reinsurance

NMIC is party to eight quota share reinsurance treaties – the 2016 QSR Transaction, effective September 1, 2016 and as modified April 1, 2019, the 2018 QSR Transaction, effective January 1, 2018, the 2020 QSR Transaction, effective April 1, 2020 and as amended January 1, 2024, the 2021 QSR Transaction, effective January 1, 2021, the 2022 QSR Transaction, effective October 1, 2021, the 2022 Seasoned QSR Transaction, effective July 1, 2022, the 2023 QSR Transaction, effective January 1, 2023 and the 2024 QSR Transaction, effective January 1, 2024 – which we refer to collectively as the QSR Transactions. Under each of the QSR Transactions, NMIC cedes a proportional share of its risk on eligible policies to panels of third-party reinsurance providers. Each of the third-party reinsurance providers that is party to the QSR Transactions has an insurer financial strength rating of A- or better by S&P, A.M. Best or both.

Under the terms of the 2016 QSR Transaction, NMIC cedes premiums written related to 20.5% of the risk on eligible primary policies written for all periods through December 31, 2017 and 100% of the risk under our pool agreement with Fannie Mae. The 2016 QSR Transaction is scheduled to terminate on December 31, 2027, except with respect to the ceded pool risk, which expired on August 31, 2023. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2020, or at the end of any calendar quarter thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2018 QSR Transaction, NMIC cedes premiums earned related to 25% of the risk on eligible policies written in 2018 and 20% of the risk on eligible policies written in 2019. The 2018 QSR Transaction is scheduled to terminate on December 31, 2029. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2022, or at the end of any calendar quarter thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2020 QSR Transaction, NMIC cedes premiums earned related to 21% of the risk on eligible policies written between April 1, 2020 and December 31, 2020. The 2020 QSR Transaction is scheduled to terminate on December 31, 2030. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2025, or at the end of any calendar quarter thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2021 QSR Transaction, NMIC cedes premiums earned related to 22.5% of the risk on eligible policies written from January 1, 2021 to October 30, 2021. The 2021 QSR Transaction is scheduled to terminate on December 31, 2031. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2024, or at the end of any calendar quarter thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2022 QSR Transaction, NMIC cedes premiums earned related to 20% of the risk on eligible policies written primarily between October 30, 2021 and December 31, 2022. The 2022 QSR Transaction is scheduled to terminate on December 31, 2032. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2024 or semi-annually thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2022 Seasoned QSR Transaction, NMIC cedes premiums earned related to 95% of the net risk on eligible policies primarily for a seasoned pool of mortgage insurance policies that had previously been covered under the retired Oaktown Re Ltd. and Oaktown Re IV Ltd. reinsurance transactions, after the consideration of coverage provided by other QSR Transactions. The 2022 Seasoned QSR Transaction is scheduled to terminate on June 30, 2032. NMIC has the option, based on certain conditions, to terminate the agreement as of June 30, 2025 or quarterly thereafter through December 31, 2027 with the payment of a termination fee, and as of March 31, 2028 or quarterly thereafter without the payment of a termination fee. Such termination could result in NMIC recapturing the related risk.

Under the terms of the 2023 QSR Transaction, NMIC cedes premiums earned related to 20% of the risk on eligible policies written in 2023. The 2023 QSR Transaction is scheduled to terminate on December 31, 2033. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2025 or semi-annually thereafter, which could result in NMIC recapturing the related risk.

Under the terms of the 2024 QSR Transaction, NMIC cedes premiums earned related to 20% of the risk on eligible policies written in 2024. The 2024 QSR Transaction is scheduled to terminate on December 31, 2034. NMIC has the option, based on certain conditions and subject to a termination fee, to terminate the agreement as of December 31, 2027, or at the end of any calendar quarter thereafter, which could result in NMIC recapturing the related risk.

NMIC may terminate any or all of the QSR Transactions without penalty if, due to a change in PMIERS requirements, it is no longer able to take full PMIERS asset credit for the risk-in-force (“RIF”) ceded under the respective agreements. Additionally, under the terms of the QSR Transactions, NMIC may elect to selectively terminate its engagement with individual reinsurers on a run-off basis (i.e., reinsurers continue providing coverage on all risk ceded prior to the termination date, with no new cessions going forward) or cut-off basis (i.e., the reinsurance arrangement is completely terminated with NMIC recapturing all previously ceded risk) under certain circumstances. Such selective termination rights arise when, among other reasons, a reinsurer experiences a deterioration in its capital position below a prescribed threshold and/or a reinsurer breaches (and fails to cure) its collateral posting obligations under the relevant agreement.

25. Changes in Incurred Losses and Loss Adjustment Expenses**A. Changes in Incurred Losses and Loss Adjustment Expenses**

The Company's practice is to establish claim reserves only for loans in default. The Company does not consider a loan to be in default for claim reserve purposes until the payment date at which a borrower has missed the preceding two or more consecutive monthly payments. The Company also reserves for claims incurred but not yet reported. However, and consistent with the industry, the Company does not establish claim reserves for anticipated future claims on insured loans that are not currently in default. The Company does not adjust premiums based on past claim activity.

The Company had reserves for claims and claim adjustment expenses (net of reinsurance) of \$99,301,653 and \$96,459,609 as of March 31, 2024 and December 31, 2023, respectively. During the three months ended March 31, 2024, the Company had a \$29,282,462 favorable prior year development for the provision for incurred claim and claim adjustment expenses attributable to insured events for prior years. Loss reserves remaining as of March 31, 2024 for defaults occurring (net of reinsurance) in prior years have been reduced to \$66,325,639, following re-estimation of unpaid claims and claim adjustment expenses, and due to cures and claim payments of \$851,509. The net increase in loss reserves as of March 31, 2024 compared to December 31, 2023 was primarily driven by the establishment of initial reserves on newly defaulted loans during the three months ended March 31, 2024, as well as an increase in the average case reserve held against previously defaulted loans that have aged in their delinquency status. The increase in the reserves for insurance claims and claim expenses was partially offset by the release of a portion of the reserves the Company established for anticipated claims payments in prior periods (in connection with cure activity and ongoing analysis of recent loss development trends), as well as the payment of previously reserved claims during the period.

The Company's reserve setting process considers the beneficial impact of forbearance, foreclosure moratorium and other assistance programs that may be made available to certain defaulted borrowers. The effectiveness of forbearance and other such assistance programs can be further enhanced by the availability of various repayment and loan modification options which typically allow borrowers to amortize or, in certain instances, outright defer payments otherwise missed during a period of dislocation over an extended length of time. NMIC generally observes that forbearance, repayment and modification, and other assistance programs are an effective tool to bridge dislocated borrowers from a time of acute stress to a future date when they can resume timely payment of their mortgage obligations, and note higher cure rates on defaults benefitting from broad-based assistance programs than would otherwise be expected on similarly situated loans that did not benefit from such programs.
